 Prestige Agro Dragoan Ltd.

 Prestige Formulation Ltd.

 Prestige Seed Limited

 PRESTIGE AGRO DRAGOAN LTD.

Prestige Agro Dragoan Limited is an agro based company deals with crop protection chemicals, seeds & fertilizer. The research & product development, product promotion, marketing & sales are managed by a group of dedicated experienced agriculturist along with other graduates from various disciplines. We have well spread distribution system in strategic position with required infrastructure to serve the farmers at the door step. Prestige Agro Dragoan Limited (PADL) came into being in the year 2010 and established itself as one of the quality product provider in agriculture sector.

Crop protection chemical i.e. pesticide is one of the vital inputs required for farmers for protection of crops from insects, diseases and weeds. Currently about 36% of total cultivated land is under pesticides coverage. Pesticides is used both in plantations (Tea & Rubber) and field crops i.e Rice, Wheat, Sugarcane, Jute, Banana, Mango, Litchi, Vegetable, and Spices as a pre-harvest control and in stores for post-harvest control. Pesticides are restrictive products and its import use and distribution are controlled and supervised by the regulatory authority DAE under the Ministry of Agriculture. A marketing company can only import and market the product which is specifically been screened, tested, approved and provided with a Registration Certificate by the regulatory authority of Ministry of Agriculture. Of date PADL has 24 pesticides (Insecticide-16, Fungicide-6 & Herbicide-2) registered in their name & few number of others are in pipeline for registration process. PADL also marketed 8 Fertilizers in their name.

Our Mission is food security along with a Vision of a green world.

Mission

We constantly improve what is essential to farmer's progress. We are on a mission to make available high quality products/agricultural inputs and services of International Standards to our customers/farmers across the country through mutually beneficial manner. We have been working continuously for increasing the productivity of land by providing individual guidance to the farmers. We are committed to farmers to provide them our's quality rather than products. Creation of value for the clients, creation of value for the company and creation of a valuable workplace is our promise. All components of the mission are mutually related and each of them is no less important than the others.

Vision

The Company's vision is the ambitious dream to become the leader of the agribusiness in South Asia not only in terms of market size or turnover but also in terms of the number of satisfied employees and customers as well. To be a trusted & leading player with realistic approach in agro inputs, services and agro solutions provider by educating farmers on agricultural techniques to maximize the production/yield without compromising on quality of our products.
